

REMARKS

I. Amendments

Claims 1-8 are pending. Claim 8 has been withdrawn, and claims 1-3 and 7 have been amended. The claim amendments simply rephrase the claims to make the claim language more consistent and/or easier to read. Applicants submit that such amendments are permissible under MPEP §2163.07, and do not introduce new matter.

Applicants reserve the right to pursue any canceled or other subject matter disclosed in this application in one or more divisional and/or continuation applications.

II. Response to Restriction Requirement

In response to the October 2, 2007 Restriction Requirement, Applicants elect **Group I**, comprising claims 1-7 and drawn to a pharmaceutical composition.

Claim 8 is directed to a method of making a pharmaceutical composition of claim 1. Pursuant to Applicants' restriction requirement election, claim 8 has been withdrawn. Once claim 1 is allowed, however, Applicants request that claim 8 be rejoined. Under such a circumstance, this rejoinder is required:

Process claims which depend from or otherwise include all the limitations of the patentable product will be entered as a matter of right if the amendment is presented prior to final rejection or allowance.

MPEP §821.04(b) (emphasis added).
